

SAICHAND MUDDASANI

Full Stack Software Developer

Christchurch, NZ | +64 221201243 | saichand.muddasani@hotmail.com | linkedin.com/in/saichandmuddasani

PROFILE

Full stack developer with hands-on experience across React, C#/.NET, and Azure, including delivery of a healthcare web application built to HIPAA compliance standards. Combines a software development background with several years in operations and customer-facing roles, bringing strong problem-solving, communication, and reliability to technical teams. Azure Fundamentals (AZ-900) certified. Actively seeking a full-time software development role in New Zealand.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, C#, React, Vue.js, ASP.NET, HTML & CSS, Bootstrap

Cloud & Platforms: Microsoft Azure (AZ-900 certified), Postman, Visual Studio, VS Code

Data: MongoDB, Microsoft SQL Server, MySQL, Robo3T

Tools & Practice: Git/GitHub/GitLab, JIRA, Agile Development, API Integration, Unit Testing & Debugging, Code Documentation

Other Business Tools: AutoCAD, Xero, Wrike

EXPERIENCE

Sales and Design Consultant — Simply Wardrobes, Christchurch, NZ

May 2025 – Present

- Design custom wardrobe and storage solutions in AutoCAD, translating client requirements into accurate technical specifications.
- Manage the end-to-end client relationship — consultation, quoting, invoicing, and installation handover — using Xero and Wrike to track jobs and finances.

Full Stack Developer Intern — MVP Studio, Auckland, NZ

Mar 2023 – Oct 2023

- Built dynamic user interfaces with React.js and vanilla JavaScript, and deployed scalable applications on Azure.
- Delivered a job-listing platform feature set enabling employers to manage listings with advanced candidate search.
- Conducted code reviews and implemented automated testing, improving code quality and test coverage.
- Designed physical, interface, logical, and data models; mentored new team members.

Cash Operations Supervisor — Armourguard Security, Christchurch, NZ

Nov 2016 – May 2025

- Managed a comprehensive operations database, maintaining accuracy and regulatory compliance across daily activity.
- Developed and enforced procedures that improved workplace safety and operational efficiency.
- Led a team through procedural change and performance standards, ensuring consistent service delivery.

Software Developer — Qatalys Technologies, India

Jan 2012 – Apr 2015

- Developed and integrated features for a healthcare web application using C# and ASP.NET.
- Implemented security measures to meet HIPAA and other regulatory requirements, protecting patient data.
- Identified and delivered performance optimisations and functionality upgrades across the application lifecycle.

EDUCATION & CERTIFICATIONS

Diploma in Computer Science (Software Development, Level 7) — Aspire2 International, New Zealand (2015 – 2016)

Bachelor of Information Technology — Jawaharlal Nehru Technological University, India

Microsoft Azure Fundamentals (AZ-900) | Essential First Aid, Red Cross
